

Alberta Alpine Ski Association, 2020/21 Fee Structure

The Board of Directors of Alberta Alpine, at the recommendation of the Audit & Governance Committee, has ratified the 2020/21 membership fee structure.

This fee adjustment represents a restructuring of the organizations finances, allowing the organization to deliver the management and programming direction applicable to all age categories, while separate of programming delivered through member fee revenue, operating the high-performance programs for the Alberta Ski Team, and Alberta Ski Cross Team, on independent budgets.

On this note, this fee increase is to allow the organization to provide services to our members. This revenue does not support our high-performance teams, which operate through sponsorship, fundraising, grant revenue, and team fees. The athletes on the Alberta Ski Team and Alberta Ski Cross Team also have numerous individual sponsorship opportunities available, support which is applied directly to their account and solely to support their athletic program.

Alberta Alpine is grateful for the continued support of our member clubs, athletes and families. If you have concerns or issues with our fee structure, please connect with any of our board members ([link to list](#)).

Category	Fee	Notes (if applicable)

FIS National Dual	\$950.00	
FIS International	\$1,200.00	
FIS International Dual	\$1,300.00	

At this time, registration is not open yet, at the direction of Alpine Canada Alpin (ACA).

An element of membership is the execution of the membership document, and also the signature on the release of liability and indemnification agreement. At this time ACA does not have the new verbiage that will pertain to this and therefore **membership agreements for the 2020-2021 season at this time cannot be executed**. Members are covered until June 30, 2020, so there will be no gap in coverage. As soon as the new policies are in place and the updated verbiage can be included in waivers, we will distribute and formally open up all membership registration.
