Cold Weather Policy

To ensure the safety of all participants, coaches, and Volunteers there is a hard limit on cold exposure. The below limits per age group apply if the temperature on the “feels like” scale is predicted to be colder than the stated temperature at noon at the middle of the race run the race will be deemed to be too cold to host. Forecasts will be reviewed by the ROC the week prior to the event and all efforts will be attempted to make this call within the 5 days prior to the event to reduce travel costs. As forecast models are never 100% accurate day of (morning of competition) calls will still apply for this policy.

3.0 Event Planning Guidelines

The following information is to provide operating guidelines for clubs running Alberta Alpine sanctioned events. The purpose of these guidelines is to ensure all events are operated to provincial standards with consistent timelines, budgeting and race quality.

3.1 Officials Requirement

- 3.3.1 All chiefs involved in a Race Organizing Committee should have completed a minimum of Level II Officials Training.
- 3.1.2 ROCs may appoint a chief of medical to oversee any incidents, however all ROCs must work with their venue and follow the safety protocols established by those resorts and ski patrol.
- 3.1.3 Clubs should be proactive in training and mentoring their members through the Race Officials Training Program. All volunteers working “inside the fences” should hold at least their Level 1 officials’ certification and must be General Members of Alberta Alpine or their respective home PSO.
- 3.1.4 All jury’s should strive to have at least one member of different gender

3.2 Race Notice

- 3.2.1 The draft race notice must be submitted to Alberta Alpine (as a Word Document) **six weeks** prior to the race
- 3.2.2 The race notice will be posted on the Alberta Alpine website upon approval of the race notice and budget. Please use the standard race notice template available on the Alberta Alpine website

3.3 Budget Guidelines

- 3.3.1 The budget for entry fees should be developed with the goal of covering all direct expenses and overheads and may include a small residual for the club. Sponsorship revenue in cash or value in kind generated by the club does not form part of this calculation and may be used to increase the club’s benefit from the race.
- 3.3.2 It is recognized that ROC costs vary widely depending on the type of event, ski area charges, safety requirements, and other factors. Race entry fees will therefore vary from event to event.
- 3.3.3 FIS calendaring fees for each calendared codex will be forwarded to the host club for payment. This will be done upon the delivery of this invoice from Alpine Canada and FIS.
- 3.3.4 The Alberta Alpine’s race entry levy will be applied for the 2024-25 season \$5 for every first run starters per day for all age categories. This does not apply to Nor Am Cup Events or National Championships This directly supports the Alberta Ski Team
- 3.3.5 Maximum entry fees for each age group are as follows:
 - NGSL \$40/day.
 - U12 \$40/day.
 - U14 \$50/day.
 - U16 Tech \$50/race start.
 - Regional \$50/day.
 - U16 Speed \$50/race start.
 - SX \$50/day.
 - FIS Tech \$60/ race start.
 - FIS Speed \$75/ race start.

- 3.3.6 Fees do not include the added costs of lift tickets, food or extras. Higher entries for speed events above \$65 must be related to increased costs for additional safety and must be approved by Alberta Alpine
- 3.3.7 Official training days (WSX, SG, DH, etc.) should have a minimal fee
- 3.3.8 You must follow all Financial Consumer Agency of Canada guidelines when it comes to MasterCard, American Express, and Visa merchant rules

If the athlete field size is not divisible by 3 the first extra spot will be allocated to group C, and if necessary the second spot will be allocated to group B.

In the case of a tie at the location where the groups would be split all the tied athletes will be placed in the higher group.

Example:

- ii. 11 athletes would have 3 racers in Group A, 4 in Group B and 4 in Group C

Each group will be randomized within the group.

Each group will be placed into their seed per race as defined below:

Results should show that the athlete's abilities are beyond all of those that they would compete against in U14. A technical evaluation of the athlete's ability on and off snow must also be a part of this reference letter.

2. Detailed medical records from the athlete's physician that clearly shows that the athlete's growth and development is beyond the individual's peak height velocity and that they have reached a level of physical maturity that would allow them to adapt to the increased volume and intensity of training and competition in the U16 environment.

3. Written reference from the athlete's teacher or education provider outlining the cognitive maturity of the athlete. The athlete should display an above average ability in school and the maturity level to interact with an older age group.

The Nancy Greene Ski League is a national program, inaugurated shortly after Nancy Greene Raine's Gold Medal win at the 1968 Grenoble Olympic Winter Games. Since then, the program has been successful in introducing thousands of children to alpine skiing. Many of Canada's top international skiers received their early training in Nancy Greene Ski League programs (NGSL).

The program is aligned with the Skier Essentials and Learn to Train phases of the ACA Long Term Skier Development Model, and the ACA Snow Stars Skill Achievements Program.

These events, held at the club, zone, and provincial level, provide young skiers the opportunity to test the skills they have learned in the program in a fun and friendly environment. 12.0 Age Class Working Groups
