New Coaches | Getting Started

For new coaches joining your club's roster, here's a quick checklist for helping them get started:

1. Register with your Alberta Alpine Ski Club in RAMP to become a member of Alberta Alpine Ski Association for the season.
    - *Individual, non-parent coaches can apply a promo-code for a single membership – ask your PD or club admin.*

2. Register for an EL Coaching Course. Courses (and registration links) will be online as of November 1st on the Alberta Alpine event calendar and, by registering for the first time, you will establish your Uplifter login for future use. https://upliftersnow.com/

3. Once you are set-up in Uplifter, you will receive instructions for NCCP Locker set-up on https://coach.ca/

4. Good news! The new First Tracks program supports new EL coaches too. New coaches joining Alberta Alpine member clubs who successfully register and **complete their Entry Level course prior to January 18th will receive a $150 coaching bursary**.

More coaching resources can be found here: https://albertaalpine.ca/coaches/

Coaches who have let their membership lapse but who are returning to coaching for this season and do not have access to their previous certification will need to first **RENEW** at the **Canadian Ski Coaches' (CSC) Licensing Renewal and Registration Portal** here: https://upliftersnow.com/#!/memberships/aca-canadian-ski-coaches-2026-2027 If, after that, legacy Level 1,2,3 certifications need uploading/aligning with the new EL,DL,PL program, connect with Gillian so we can submit that request.

Thank you! Further registration questions can be directed to:
